

EUROPE ELECTRONICS

## **ENVIRONMENTAL POLICY**

Europe Electronics recognises the need to minimise waste and recycle where possible

### **Environmental Policy Statement**

Europe Electronics will take all reasonable steps to protect the environment when conducting its business. We recognise the need to minimise waste, utilising recycled and renewable products and recycling whenever possible. We will minimise the use of energy resources where possible. We will ensure our employees are informed regarding the global benefits of environmental protection and act accordingly in line with our Environmental Policy.
